

AI STARTER SNAPSHOT FOR CHURCHES

Practical, Human-First Guidance for Wise Use

Purpose: Use AI wisely to reduce burden and increase capacity for ministry—not replace it.

AI Is: A tool for drafting, organizing, and summarizing.

AI Is Not: Spiritual authority, discernment, or relationship.

Core Idea: AI is a **force multiplier**—it amplifies what is already present. Clear thinking improves results; careless use creates risk.

High-Value Uses:

- Sermon prep support (context, structure—not authorship)
- Communication drafting (emails, announcements)
- Admin relief (notes, policies, forms)
- Teaching materials (questions, outlines)
- Outreach ideas and website clarity

Pastoral Care Boundary:

Use AI to help draft, but never replace human care. Do not include sensitive or identifying information.

Guardrails:

- Keep Scripture and leadership primary
- Protect confidentiality
- Review everything before use
- Maintain transparency

Start Small:

Pick one use (weekly email or meeting notes), test it, and expand carefully.

“Behold, I will do a new thing...” — Isaiah 43:19

Goal: Remove friction so leaders can focus on people. People are still the mission.
